Summary

Third-year Electronics and Communication Engineering student specializing in networking, embedded systems, and Linux system administration. Proficient in Python, C++, and C, with hands-on experience in Arduino-based projects. Currently training as an Information Security Analyst at DEPI. Seeking an internship to apply technical skills in cybersecurity, embedded systems, and network engineering.

Experience

Onsite Coordinator

almentor – Part-time | Jul 2024 – Present | Port Said, Egypt

- Supervised training delivery, ensuring adherence to educational content and schedules.
- Monitored and evaluated student assignments, projects, and exams.
- Managed student and instructor attendance reports.
- Coordinated session logistics, technical readiness (internet, cameras), and practical recordings.
- Supported student engagement and resource distribution in collaboration with trainers and academy coordinators.
- Maintained training center safety, cleanliness, and organization.

Programming Instructor

Freelance | Apr 2025 – Present | Python & C++ | 80+ Hours Delivered

- Conducted beginner to intermediate-level programming courses in Python and C++.
- Delivered over 80 hours of hands-on, interactive training to students.

ITI Ambassador

Information Technology Institute | Aug 2024 – Present | 100+ Trainees | 50+ Training Hours

- Led training initiatives for over 100 trainees.
- Delivered more than 50 hours of technical and soft skills sessions.

Education

Port Said University

Bachelor of Engineering (BE) – Electrical, Electronics and Communications Engineering

Oct 2021 – Jul 2026 | Currently in 3rd Year

Volunteering & Activities:

- Secretary, IEEE PSUSB
- Secretary, ICPC PSU Community
- Secretary, PSED
- Battery & BMS – Autonomous member, PSURT

Skills

- **Programming:** Python, C++, C
- **Technical:** Embedded Systems, Linux, Arduino, Networking, CCNA-level knowledge
- **Tools:** Google Sheets, Git, GitHub
- **Soft Skills:** Time Management, Teamwork, Communication

Certifications

- Cisco Certified Network Associate (CCNA)
 - Software Engineer
 - Computer Network Fundamentals
 - Cybersecurity Essentials
 - Git and GitHub
 - Data Analysis Challenger Track
 - Fundamentals of Logistics – 24 Hours
-

Projects

Obstacle Avoidance & Line Following Robotic Car

Apr 2024 – Present | Port Said University

- Designed and developed an autonomous robotic car with line-following and obstacle avoidance capabilities.
- Participated in the Robot Speed Run Competition (RSRC 2024), organized by IEEE PSUSB.
- Achieved 3rd place among competing teams.

2-Axis Solar Tracker System

Port Said University

- Built a dual-axis solar tracker using 5W solar panels to maximize energy absorption.
- Integrated battery charging functionality for efficient energy storage.
- Enhanced renewable energy solutions through real-time solar tracking.
