SUMMARY

Summary Electronics and Communication Engineer specializing in automation engineering and embedded systems. Proficient in Python, C++, and C, with hands-on experience in workflow orchestration, robotic systems, and script-based automation. Currently serving as a Physical Coordinator for DECI and an Online Coordinator for DEPI with ILearn, integrating technical automation skills with operational management.

EXPERIENCE

Online Coordinator | ILearn | Jul 2025 – Present

- Managed online session records and tracked attendance for digital student cohorts, ensuring operational continuity.
- Resolved technical issues and platform challenges to maintain a seamless learning environment.

Onsite Coordinator | almentor (DECI) | Jul 2024 – Jul 2025

- Managed physical venue logistics and technical readiness for onsite sessions in Port Said.
- Supervised training delivery and coordinated student cohorts to ensure adherence to educational schedules.
- Collaborated with instructors to maintain organized, safe, and productive physical learning environments.

ITI Ambassador & Technical Training Lead | Information Technology Institute | Aug 2024 – Present

- Delivered technical programming courses to 100+ active students, fostering foundational engineering skills.
- Supervised training programs for 300+ students, ensuring high educational standards and quality control.
- Mentored junior instructors to develop technical proficiency and soft skills.

EDUCATION

Bachelor of Engineering: Electrical, Electronics and Communications | Port Said University | Jul 2026

VOLUNTEERING & ACTIVITIES

Chairman | IEEE PSUSB | Oct 2021 – Jul 2026

- Managed development of training courses and external organizational collaborations.

Secretary | ICPC PSU Community & PSED | Oct 2021 – Jul 2026

- Coordinated logistics and database management for technical committees and registrations.

Battery & BMS Member | PSURT (Autonomous Vehicle Project) | 2023 – 2024

- Contributed to battery management systems for autonomous racing vehicle development.

SKILLS

- **Leadership:** Program Coordination, Public Speaking, Team Management
- **Programming:** Python, C++, C
- **Technical:** Linux, Embedded Systems, Arduino, Web Scraping, CCNA Networking
- **Tools:** n8n, Docker, PostgreSQL, Google Gemini API, Git/GitHub

CERTIFICATIONS

- Information Security Analyst (SOC Tier 1) | Cisco CCNA | Cybersecurity Essentials
- Software Engineer | Data Analysis Challenger | Fundamentals of Logistics

PROJECTS

AI-Powered Session Recording & Attendance Automation System

- Developed a headless browser bot to automate Microsoft Teams interactions and recording management.
- Integrated Google Drive and Gemini AI for automated data pipelines and fuzzy-matching attendance logic.
- Deployed a React dashboard for real-time administration and granular access control.

LANGUAGES

- Arabic (Native) | English (Professional Working Proficiency)
